A TENEMENT FIRE

A CROWDED HOUSE ON THE BOWERY, NEW YORK, BURNED.

THE NUMBER OF LIVES LOST SAID TO REACH A SCORE.

The Explosion of a Kerosene Oil Stove the Cause of the Awful Holocaust, Which is the Most Disastrous That has Occurred in New York for Years—List of the Dead. Canadian Brush Fires—West Unity, Ohio, Suffers a Severe Loss.

NEW YORK, Aug. 6.—A six-story brick tenement house in the rear of 197 Bowery, was burned Friday afternoon. Thirteen persons perished in the flames and six more are so badly burned that they will probably die.

The house was a tumble-down affair, located in the middle of the block and furnished quarters for 150 people, all Polish Jews.

Each of the six floors was occupied by a single family, the head of which was a tailor who made clothing for the cheap wholesale clothing houses, and employed from fifteen to twenty men, women and children, in addition to his own family, in making up clothing. Employers and employed worked, ate and slept in the crowded rooms of the dingy tenement. The tenants who rented apartments were S. Coon, S. Graft, Klein & Marks, S. Harris and H. Levine.

At 4:15 p. m., while the occupants of the building were busy at work, a kerosene oil stove on the lower floor exploded, and before the alarm could be given upstairs the stairway was a mass of flames.

Great excitement prevailed in the street, and the police reserve of one hundred blue coats were called at once to the scene to assist the firemen. Ambulances and surgeons were also summoned, and rendered valuable service to the injured.

Many of the frightened inmates rushed down through the flames and escaped to the narrow courtyard with clothes ablaze and hands and bodies burned. Six of them were so severely burned that they were taken to the hospital and may die. There were fire-escapes—perpendicular iron ladders running down the front and rear of the building—but before any of the inmates had tried to escape by them the flames had ascended through the house and were reaching from the windows, so that descent by the fire-escapes was impossible.

Some of the inmates, half dead from their burns, leaped from the windows to the pavement, injuring themselves more seriously than ever.

When the firemen had at last drowned the flames so that they could enter the house, they searched floor by floor as they ascended, and on the third floor they found the burned bodies of a man, a woman and a boy. On the fourth floor they found five bodies so badly burned that it was impossible to tell whether they were those of men or women. On the fifth floor no bodies were found, but on the sixth floor five more bodies were found, and they also were burned so that it could not be told whether they were the bodies of men or women.

This made thirteen bodies found in the building. That of the man who leaped from the fifth-story window increased the death list to fifteen, while it is feared that the death of some, if not all, in the hospitals will make this number greater.

The building belonged to Lawyer Abraham Stern, who bought it six months ago. The damage to the building is about \$8,000, covered by insurance. The loss on the stock of clothing in the various apartments is estimated at \$15,000.

Search for bodies in the ruins of the Bowery fire was continued by the firemen throughout the night, and in the morning the body of a woman, supposed to be Nannie Meyerson, a tailor, of No. 1 Ludlow street, was found on the ground floor of the burned building under a heap of rubbish. The flesh was burned to a crisp and it can only be surmised who the woman was.

Shortly after the finding of this body a report was circulated that two more bodies, apparently of men, had been found.

A few minutes later the report was confirmed. One of them had so entirely lost semblance of human shape as to be mistaken for a roll of burned cloth. It was passed by under that impression during the night. This will increase the number of dead to twenty, and includes all who are supposed to have been buried in the ruins.

At 11 o'clock the bodies found were taken to the morgue, and the firemen, having overhauled the building from the cellar to the roof, left it in charge of the fire patrol. A squad of police, stationed in the vicinity of the ruins to keep back the crowds of sight-seers, had great difficulty in keeping the throngs moving.

Shortly before noon Lawyer Stern, who owned the burned building, appeared on the scene, and requested the firemen to make another search, so as to make doubly sure that no more bodies were in the ruins. His wish was complied with later in the day. Mr. Stern made arrangements to bury all the victims of the fire at his own expense. He says that this is the least he can do for the relatives of the unfortunate victims.

A brother of a young tailor, named Ruben Levine, made anxious inquiries of the police concerning Ruben whom he says he has not seen since the fire. The police believe that he is one of the victims. His death is peculiarly sad. His wife and little child are now on the ocean en route to join him in this country.

Hyman Graft, the tailor, who lost his wife and two children by the fire was a pitiful object, as he went from one black mass to the other in search of the body of his wife.

LATER.—All but three have been accounted for, and these three are believed to have been wholly incinerated and that not a vestige of their remains will be found.

At 12:30 a. m. Sarah Blum, aged twenty-

one years, a native of Poland, died at the Bellevue hospital. There are seventeen bodies lying in pine boxes at the morgue at 1 o'clock. One of the horrible and unrecognizable masses was identified this afternoon, as Jacob Frieberg, aged thirty-seven, of No. 23 Forsyth street.

Three of the wounded and burned at Bellevue hospital, Michael Rubenoff, Phillip Malone and Bernard Bathman will recover. So far as known, the death list is as follows:

Adele Graft, twenty-eight, with her new-born babe, burned to death.

Joseph Graft, seven, burned to death.

Celia Graft, four, burned to death.

Phillip Talop, twenty-three, killed by jumping from sixth story.

Henry Schwartz, tailor, suffocated on fourth floor.

Woman, unknown, at morgue, burned beyond recognition.

Abraham Schneider, thirty-six, burned to death.

Solomon Weinberg, burned almost beyond recognition.

A number of bodies at the morgue burned beyond recognition.

The following is a list of the injured, so far as known:

Michael Rubenoff and Harris Rubenoff, father and son; the former will recover, but the latter will die.

Asiarius Speunett, Russian tailor, aged twenty-two, seriously burned; likely to die.

Bernard Rothman, Russian tailor, thirty-two, married, seriously burned.

Phillip Torrelon, English tailor, twenty-two, single, seriously burned.

Nicholas Rouef, single, twenty-four, seriously burned about body.

Sarah, tailoress, aged nineteen, seriously burned; likely to die.

Ida Frank, Russian tailoress, single, fractured skull from fall; likely to die.

Abraham Novotaky, Russian tailoress, slightly injured by a fall.

Edward Mopotic, Russian tailor, injured about limbs by jumping from third story.

Nathan Leanne, Russian tailor, aged sixty; burned about the body.

Bush Fires in Canada.

OTTAWA, Ont., Aug. 6.—Bush fires are devastating the country in every direction, and the loss will be terrible. What is known as Stewarston bush, adjoining this city, is now on fire, and hundreds of citizens went out Friday night to prevent its crossing the city limits. A volunteer brigade was formed to assist the city fire department, and remained on duty all night.

Word has been received that Eureka, a small village containing about fifty houses and stores, and a large steam sawmill, half a mile off the line of the Canada Atlantic railway, has been destroyed. The houses were occupied mostly by mill hands, who lost everything. Many of them barely escaped with their lives.

Around Pembroke the whole country is reported to be in flames, and settlers are crowding toward the banks of the river for refuge. Several of the most valuable timber limits on the Ottawa river have already been destroyed, and unless rain comes soon many of our wealthiest lumber kings will be bankrupt. This is the most extensive forest fire that has ever been known to visit this part of the country.

An Incendiary Fire.

NEW YORK, Aug. 6.—A fire occurred in a three-story and basement rattle trap tenement at 125 East Eleventh street. The building adjoins Webster hall, and was occupied by J. Schaffer, wife and two children and several lodgers. The Schaffers left the house at 8 o'clock, saying they were going on a water excursion.

At 8:35 a. m. the fire was discovered, but was promptly extinguished, with a loss of only \$200. The firemen then discovered that the floors, doors, beds, bedding and closets were saturated with kerosene and benzine, besides two "jokers" that did not go off, and three packages of gunpowder were found on the floor and in the closets. Detectives are now looking after the Schaffers.

An Ohio Town Scourged.

TOLEDO, O., Aug. 6.—West Unity, a small town near here, was almost swept out of existence by fire Friday night. Thirteen stores were totally destroyed, involving a loss of from \$75,000 to \$100,000. The heaviest losers are Ely & Smith, dry goods; Adam Gosber, clothing; Les & Charter, hardware, and the proprietor of the Hergon house, the best hotel in the place. The origin of the fire is unknown. The citizens turned out en masse and worked hard to subdue the flames.

Mexico's Inter-Oceanic Railway.

CHICAGO, Aug. 6.—Delphin Sanchez, the original concessionaire of the Inter-Oceanic railway of Mexico, is in the city on his way home from England. "We have £2,000,000," said Senor Sanchez. "The money has been subscribed by an English syndicate. The line will begin on the Atlantic side at Vera Cruz and end at Acapulco, a Pacific port. The distance is seven hundred miles. We have bought two or three short lines, which will be used as part of the road. Most of the route lies through a valley. We will thus avoid many engineering difficulties. Besides the road is to be a narrow gauge. Two million pounds will complete about five hundred and sixty miles."

Will Investigate the White Caps.

INDIANAPOLIS, Aug. 6.—In compliance with a request from Governor Gray, a visit to southern Indiana will be made by Attorney General Michener for the purpose of obtaining evidence, if possible, in which to prosecute some of the White Caps outlaws, who have been committing outrages so frequently.

Grasshoppers in Canada.

OTTAWA, Ont., Aug. 6.—Grasshoppers are causing terrible ravages near here. Farmers complain very much of the depredations. A local naturalist who visited the infested district made a calculation, and estimates the number of the creatures on each square mile of territory to be upward of 10,000,000.

"Uncle" John Robinson Dead.

CINCINNATI, O., Aug. 6.—John Robinson, the veteran showman, died at his home, corner of Seventh and College, at 8 a. m., surrounded by his family. He was unconscious in his dying moments. The disease to which he succumbed at last was dropsy. The news of his death will be received with regret all over the world, for he had a world-wide reputation as a showman.

DUN'S WEEKLY REVIEW

COMPILED FROM REPORTS SENT TO THEIR AGENCY.

The Volume of Business About the Same as Last Year—Crop Prospects Improve and Prices Advance—Money Plenty for Legitimate Transactions.

NEW YORK, Aug. 6.—R. G. Dun & Company's weekly review of trade says:

Business is a little better, and in aggregate volume is now fully equal to that of last year at this date, though smaller in some important branches. The iron and woolen prices have materially decreased, but business in groceries, lumber and farm products generally is large, and the confidence in improvement at no distant day grows stronger. This confidence has a substantial basis in the crop prospects, which grow more satisfactory each week and in the belief that changes of the tariff affecting important industries will, by congress' disagreement, be referred to a vote of the people.

Trade has improved at Philadelphia, Baltimore, Cleveland, Detroit, Nashville and Galveston, and is excellent at Omaha. At some points the lateness of the season retards the revival of activity, and at many the recently prevailing dullness is still unbroken, but the general result is a perceptible increase of activity. At Detroit and St. Paul the lumber trade is especially mentioned as excellent, and at Pittsburgh and Nashville larger transactions and better prices in iron have been noticed, with improvements also in charcoal iron at Detroit.

Wool dealings are smaller than usual, farmers hoping for better prices hereafter, and dry goods are not especially active, the demand for woollens being slack even at low prices, and for cottons rather irregular for the season.

The coal trade has been large in July, but seems to slacken; more activity is seen in coffee, which has declined one-half cent; and in raw sugar, but refined is easier, production having overtaken consumption.

The speculative markets have been non-active. Wheat has risen four cents for the week, with sales of 83,000,000 bushels at New York and corn one cent, with sales of 16,000,000 bushels, and oats two cents, but all were still higher on Wednesday, and have since declined. Hogs have risen ten cents, and pork twenty cents per barrel; oil one and one-half cents and cotton two cents per hundred pounds, with sales of \$60,000 bales.

The excellence of the crop prospects in this country does not prevent an advance in products, which is based on belief in a larger foreign demand hereafter, although exports thus far have been much below those of last year. Iron is considered stronger, though No. 1 southern is quoted at \$17.25 delivered in Brooklyn, and steel rails are lower, sales being quoted equivalent to \$29 at eastern mills. The general average of all prices has risen 2 1/2 per cent since July 1.

Reports as to collections do not improve, and complaints are common. Most industries appear fairly employed, though no improvement is seen in iron or woolen manufacture, and 108 quantities of wool average exactly the same price as July 1, but labor troubles are gradually diminishing.

The exchanges at all points are smaller than a year ago, but because of a decline at New York, outside of this city the aggregate shows a gain of 1 per cent. Foreign trade is diminishing, however. New York reports for four weeks show a decline of 13.3 per cent, in value of export, and much more for the last week, with only a slight increase in imports. This state of foreign trade is a constant reminder that much depends upon a continuance of foreign investments and loans. The New York returns would indicate an excess of merchandise imports over exports of about \$13,000,000 for July, following \$61,000,000 for the previous six months.

Unless products move out freely embarrasment may result and the rise in the prices of exportable products tends to check their movement.

The treasury has taken in during the past week \$2,000,000 more than it has paid out, and the actual circulation of all kinds is about \$5,000,000 less than it was a month ago, owing mainly to the large retirement of bank notes. But this results from the comparative inactivity of trade, and reports from all monetary centers indicate that the supply of money is ample for all legitimate business.

The settlement of the cable war and the excellent crop prospects have been used to advance stocks about sixty-two cents per share, but western freight wars do not yet improve in spite of frequent hopeful reports. Business failures during the last seven days number, for the United States, 191; Canada, 25; total, 216, as compared with 221 last week and 183 for the corresponding week of last year.

An Era of Rejoicing.

CANTON, O., Aug. 6.—Canton gave a royal welcome Friday afternoon to the first delegation of 200 Hampden watch works employees from Springfield, Mass., who arrived here at 4 o'clock to start watchmaking in the new Hampden building just completed. Business houses closed up, and manufacturing establishments shut down, and citizens generally joined in the welcome to the newcomers, while buildings were decorated with flags and bunting. At night a banquet was given the Hampden people in the tabernacle, to which fully five hundred people sat down. Speeches were made by Mayor Blake, a number of prominent citizens, and responded to by some of the leading Hampden people, and altogether it was a gala day.

Is a Baby Merchandiser?

MONTREAL, Quebec, Aug. 6.—The American steamer Reindeer recently made a trip from St. John's to Burlington, in Lake Champlain, with an excursion party. A young French-Canadian lawyer and his wife, who were on board with their baby, which was teething, telegraphed its grandmother at Lacolle to meet them at the wharf to receive the suffering baby. A customs officer said that passing the babe ashore was a violation of the Canadian coasting act, which prohibited an American steamer from bearing traffic between two points in Canada. The babe was not put ashore.

Pat Killen Talks.

ST. PAUL, Minn., Aug. 6.—The Dispatch published the following Friday evening: Pat Killen was seen in reference to the proposed fight between himself and Jake Kilrain. His attention was called to the statement that Kilrain would only fight London prize ring rules. Killen said he did not want to talk about the matter very badly, but declared he could not fight any rules but Marquis of Queensbury. "That is the only fair way to fight. Those English rules don't go. I will send my money down next week. I don't want any diamond belt; its money I want to fight for."

A Fight Arranged For.

STREATOR, Ill., Aug. 6.—A telegram from Alma, Wis., states that Alf Kennedy, the backer of light-weight Billy Meyer, had made a match with Jimmy Needham for \$2,000 a side. Arrangements for a finish match between Meyer and Hawkins did not materialize to-day. Meyer will be home to-day and train in this city for the match.

Sporting Notes.

Winners at Chicago: Steve Jerome, Stuart, Irish Pat, Brandollette, Glendelia and Schoolmar.

Brian Boru, Stripling, Eatonton, Falsehood, Rebellon and Young Duke were first in the Brighton Beach races Friday.

Catcher Bligh, the Cincinnati's latest acquisition, has telegraphed from New Orleans that he will join the club immediately.

Frank Murphy, the English pugilist who fought Jack Havlin, is at Boston, not much worse for his battle. They will probably fight again.

Dave Orr has been dropped from the captaincy of the Brooklyn base ball club and laid off without pay. He did not play in the St. Louis games but went to Coney Island and sent word that he was sick.

FRIDAY'S BASE BALL.—Cincinnati 8; Cleveland 9; Baltimore 2; Kansas City 3; Brooklyn 6; St. Louis 7; Athletics 13; Louisville 1; Boston 6; New York 9; Chicago 5; Indianapolis 4; Washington 2; Philadelphia 3.

UNEVEN SETTLING

May Necessitate to Razing of the Chicago Board of Trade Building.

CHICAGO, Aug. 6.—The story is current that the directors of the board of trade are debating whether to tear down their big building or not. The tower is out of plumb, and there are great cracks in the walls, caused by the uneven settling of the structure. The building has settled nearly three inches on the west side and five or six on the east, and some of the cracks in the walls are big enough for a man to put his hand into.

A well-known member of the board of trade pronounced absurd the report that the building was to be demolished. But he stated that it was the intention of the directors to remove the tower, and, perhaps, add one or two stories. He believed that something should be done to give the building symmetry and adapt it to its proper uses. A fund was now being accumulated, he said, for the purpose of removing the tower and making other desirable changes. The building cost \$1,975,000.

An Expensive Canal.

OTTAWA, Ont., Aug. 6.—The British, Dominion and provincial governments have expended \$25,000,000 on Canadian canals with a disappointing result for that enormous outlay. In the work of deepening Welland canal to a fourteen-foot draft it has recently been discovered that between Kingston and Cornwall, a distance of 100 miles on the St. Lawrence river, unlooked for engineering difficulties have appeared which may lead to the abandonment of the deepening projects. Recent surveys show that to blast a fourteen-foot channel through certain long stretches of the rock would cost four times as much as the government's estimate. The matter will be laid before parliament at the next session.

A Startling Confession Expected.

BIRMINGHAM, Ala., Aug. 6.—It is reported on good authority that Isaac H. Vincent, ex-state treasurer, who is now serving a sentence of fifteen years for the embezzlement of \$223,000 of the state's money, will soon make a full confession. Since the discovery of Vincent's shortage four years ago it has often been rumored that several prominent men were implicated and had received a considerable amount of the money. It is said Vincent has confessed to a friend that he was preparing a full statement of the whole affair in which he would make public the names of the parties implicated and the amounts they received.

NEW YORK, Aug. 6.—The World's Winnipeg special says that an Indian woman in Alaska has been tortured to death with red-hot stones for poisoning a chief's wife, and that her husband was hanged.

Scott is Hearty.

LONG BRANCH, N. J., Aug. 6.—Congressman W. L. Scott, chairman of the Democratic National committee, is entirely well and hearty, and will put his hand to the helm next week.

Rather Warm.

PEORIA, Ill., Aug. 6.—The heat has been intense here for the last three or four days. Thermometers have registered as high as 108 in the shade.

DEMOCRATIC TICKET.

For President,
 GROVER CLEVELAND,
 of New York.

For Vice President,
 ALLAN G. THURMAN,
 of Ohio.

ANNOUNCEMENTS.

To the Democrats of the Ninth Congressional District: I beg leave to submit to you my name in connection with the Democratic nomination for Congress from this district. I have no claims to urge over those of any other true Democrat, and make my announcement with some degree of timidity. I hope to make the primary contest in such a manner as not to create dissension or division in the ranks of the party, and, whether I lose or win the nomination, I propose to remain the same unflinching Democrat I have always been. Respectfully,
 G. R. KELLAR.
 Carlisle, Ky., July 17, 1888.

DEMOCRATIC DOCTRINE.

As Preached by Prominent Papers
 And Manufacturers of the
 Country.

Mr. Mills, in his great tariff speech in the House, declared that free wool would enable the woolen manufacturers in the United States to conquer foreign markets. There is no doubt of it.

The exports of manufactured woollens during the last fiscal year were only \$539,342.

The exports of cotton goods, same period, were \$14,929,342.

The exports of leather products were \$10,436,138.

There is no tax on cotton, and we export nearly \$15,000,000 of cotton goods.

There is no tax on hides and we export over \$10,000,000 of leather products.

There is a tax on wool, and our exports of woolen goods amount to only a beggarly half million dollars.

What free hides does for the leather industry, what free cotton has done for the cotton goods industry, free wool will do for the great wool manufacturing industry.

And it will give cheaper and better clothing to the masses of the people too.

Free raw material means a larger demand for labor, with better wages and cheaper cost of living.

Down with monopoly taxes.—Indianapolis Sentinel.

WHAT THE MILLS BILL MEANS.

Mr. Mills' masterly summing up of the case for Tax Reduction through Tariff Reform, accompanied by a copy of the bill itself, would make one of the most effective documents that the Democrats could circulate.

Mr. Mills showed first the "condition" that called for tax reduction; a Treasury surplus of \$130,000,000, now being augmented at the rate of \$9,000,000, per month. The Democratic policy is to stop this surplus. The Republican policy is to spend it.

The Mills bill reduces the revenue from universal necessities or comforts of the people, by an abatement of taxes, \$50,000,000. It cuts off \$20,000,000 more by putting upon the free list other necessary articles. It reduces the average duty from \$47.10 on every \$100 of imports to \$42.49. And this is called "free trade!"

It is an average duty 23 per cent. HIGHER THAN THAT OF THE MORRILL WATARRIFF OF 1862. It is almost identical with that of the prolonged war tariff in 1862, which the Republicans proposed to reduce 20 per cent. If the promise of the Republican Tariff Commission and the Republican Congress in 1882 had been fulfilled the average duty would have been reduced to 34.16 per cent. The Mills bill leaves it at 42.49 per cent. And yet that was "revenue reform," while this is "free trade."

The truth is that the bill does not go far enough in the direction of a lower revenue or a freer trade. It is simply the best that could be passed. If it should become a law and work well the people would, no doubt, extend it. If it worked ill they would go back. The whole matter is in their hands. But this campaign is to be too long and too earnestly contested to admit of the deception of intelligent voters by lying as to what the Mills bill is.—N. Y. World.

It looks very much like a walk-over for John W. Alexander.

The Louisville Democrat, established in 1870, is for sale or lease.

The Democracy of Mason are on their mettle once more, and are sweeping things for Alexander.

The Democrats turned out early this morning and have been turning out fast ever since. Look at the returns.

The grand rally at the court house Saturday night indicated that the Mason Democracy have on their war paint, and Tom Forman's scalp will dangle from their belt this evening.

Peacock Coal.

To Whom It May Concern: This is to certify that Mr. William Wormald has secured the exclusive sale for Maysville, Ky., of the genuine Peacock coal, mined from the original and only Peacock mine. All other dealers claiming to sell the same are impostors and misrepresent the truth. Respectfully,

PEACOCK COAL COMPANY.

By Fred Ebersbach, Secretary.

We keep all grades of coal—Youghiogheny, Semi-cannel, Peacock, Pomeroy, &c., at lowest market rates. Orders left at the elevator on Limestone street or at the coal office on corner of Wall and Third streets will receive prompt attention.

Miss Emma Harrison is on the sick list. William Luttrell is not so well.

Charles Calvert caught thirty-seven fish in two hours.

It was announced last Monday that Rev. Reeves would lecture at this place the first Sunday in August, but it is a mistake. He will not.

Mrs. William Calvert, of Tolleboro, is visiting friends at this place.

GERMANTOWN.

Mrs. P. B. Johnson, of Covington, and Miss Julia Thompson, of Dayton, Ohio, are guests of W. C. Johnson.

Mrs. M. A. Burgess is visiting her son, J. R. Burgess, in Mason County.

Miss Taylor, of Covington, Miss Collins, of Mayville, and Mr. Carroll Asbury, of Quincy, Ill., are guests of Miss May Asbury.

Mrs. Wallace, formerly of this neighborhood, died at Richmond, Ind., this week. Her sister, Mrs. R. M. Byar, attended the funeral. A hard rain fell on last Wednesday, accompanied by a great deal of severe thunder and lightning, considerable hail, and a remarkable shower of frogs near Mrs. Humlong's. The ground was covered with them for about two hundred yards square. It is a debated question among the people whether they came from the ground or the clouds.

The other afternoon a terrific rain and hail fell for nearly an hour. But the most remarkable phenomenon happened about a mile from town on the Augusta pike. It was a shower of small frogs to the depth of about one to three inches for a space of fifty yards each way. They were small and alive, colored very dark green. Mr. J. R. Humlong saw them and so did many others.

Thomas Erlon, Jr., killed a large blacksnake a few days ago, and out of which jumped a full-grown rabbit.

Germantown has always enjoyed the reputation of being a quiet, orderly town, and it is the remark of all visitors that the morals of this town are equal if not better than any town in the State. Find a town of five hundred without some few drinkers and we will present you with a gold medal. Of course we have some here who drink, but it is a seldom thing to see any drunk, and as for the general run of morality we "rise to say" that Germantown is not ashamed of her morals, and can point to our town with pride.

MAYSBLICK.

Miss Ida Roff's entertainment at the Baptist Church, this place, Tuesday evening, July 31, is a thing of history. The ladies who assisted her in music and song were Miss Parry, Mrs. Shurt, Miss Salsford, and Miss Dye.

Miss Roff's readings were selections from Lew Wallace, Samuel Lover, J. Whitcomb Riley and several others.

Miss Love, of Muncie, Ind., was to have assisted with the music, and much disappointment was felt on account of her enforced absence.

Among the strangers present were Mrs. Graves, of Covington; Mrs. Rose, of Maysville; Mrs. Leake, of St. Louis; Miss Welsh, of St. Joseph, Mo.; Miss Hinkle and Mrs. Patton, of Paris; Miss Knight, of Millersburg; Miss Pack, of Scott County; Mr. and Mrs. Shurt, of Florida; Mr. Henry Powers, of Maysville; Miss Perry, Versailles; Mrs. Jno. Foyne and her sister, Miss Fanny Richle, of St. Joseph, Mo.; Miss Ella Metcalfe, Maysville.

The audience was large, select and attentive and applauded with much judgment. The receipts were handsome church benefit.

Miss Ida Roff can always have a full house at Mayslick whenever she desires to appear before the public.

C. SHULTZ LEACH, City Collector and Treasurer, deposited a check for \$60,000 in the Bank of Maysville Saturday. It was drawn by the State National Bank, and was in payment of the bonds issued by the city for the Maysville and Big Sandy Railroad subscription. It was the largest check ever deposited in the Bank of Maysville.

AN OLD-TIME RALLY.

The Court House Crowded Saturday Night to Hear Kehoe, Shack- leford and Whitaker.

The rally at the court house Saturday night was the most enthusiastic gathering of the Democracy witnessed here for years. The house was crowded at 8 o'clock, many ladies being present. Haucke's Band and Brass Band furnished music. They opened out with "Dixie," which was the signal for a burst of the wildest applause. The enthusiasm was very marked from the beginning, and was evidence of the fact that the Democ- rats were alive to the fight that was being waged.

Hon. J. D. Kehoe, Hon. Charles Shackelford and Judge Whitaker were the speakers of the evening. They were all accorded a rousing reception. Mr. Kehoe lead off, and delivered an earnest appeal to work for the success of the party this year. He had traveled over two hundred miles to vote for John W. Alexander for Sheriff. His speech, though brief, was the best he ever delivered here, and he was warmly con- gratulated by his friends.

Hon. Charles Shackelford, of Gun- nison, Col., followed and delivered one of the finest arguments in favor of tariff reform heard in this city for many a day. Mr. Shackelford spoke from notes, his re- marks having been carefully prepared. His exposition of the present tariff showed that he was thoroughly posted on the subject. It is a tariff that favored the rich and oppressed the poor. It was making millionaires out of a few, and paupers out of many. He referred to the Thompson Steel Works that made \$6,000,000 profits one year and the very next tried to force their hands to accept a re- duction of 10 per cent. in wages. The speaker was frequently applauded.

Judge Whitaker spoke but briefly, owing to the late hour. The Judge made some telling points in favor of Democracy and eulogized the nominee for Sheriff in a handsome manner. He urged all Democrats to be on hand early, and do their duty by their party.

The meeting was a success in every sense of the word.

Excursion From Huntington.

The excursion from Huntington yester- day over the Maysville and Big Sandy Railroad arrived at noon. It was a suc- cess financially. The train consisted of one baggage car and seven coaches, drawn by engine 54. Between four hun- dred and five hundred people were aboard, and all seemed to be enjoying the trip. The crowd would no doubt have been larger had it not been raining hard when the train left Huntington. Most of the excursionists were picked up this side of Ashland. The train left on return trip at 4 o'clock.

Stock, Field and Farm.

Boone County has \$65,000 worth of lambs this year.

Sir Dixon is now the largest winner of the season, and his sire, Billet, is at the head of winning stallions.

Ten Broeck's two mile time has never been beaten. His three mile time has; four mile time has not.

The wheat crop in Union County is placed at 500,000 bushels. About 200,000 bushels of it has been sold at Caseyville at 70 to 75 cents.

Last week at Detroit, the famous pacer You Bet, with running mate, paced a mile in 2:06, lowering the record by quarter second.

C. Alexander, of Paris, sold 555 head of fat cattle this week for \$55,000, or about 6 cents a pound. They were purchased by Mose Kahn, of Cincinnati, for M. Goldsmith, of New York, and will be shipped November 25th, for London, England, where they will be shown at the fat stock exhibition on December 15th.

It is 29 years ago this summer that Flora Temple, the little bob-tail mare that first made trotting in harness famous throughout the country, went a mile over a Michigan track in 2:19, setting a mark that was not approached for nearly ten years, when Dexter came along and lowered it to 2:17. After Dexter came Goldsmith Maid, and she in turn was succeeded by Rarus, St. Julien, Jay-Eye-See and Maud S.

The outlook for the world's wheat crop this year is unfavorable, as compared with that of last season. France will have a deficiency of nearly 30,000,000 bushels, Hungary one of 10,000,000. The deficiency of the Italian wheat crop is placed at 12,000,000 bushels. Russia will have an unusually good wheat harvest this year, while England, Turkey, Spain and Roumania expect to equal last year's crop. It is thought India may have 24,000,000 bushels more of wheat this year than she raised last season, now that she has the welcome rainfall, so long delayed. The Chilean wheat crop is short, while that of Australia exceeds the yield of 1887 by about 8,000,000 bushels.—Exchange.

TIRED OF LIFE.

A Maysville Girl Tries to Hang Her- self at Xenia, Ohio.

The Xenia, Ohio, Gazette says "Lillie Martin, alias Martha Maze, who was just released from the city prison last Monday (July 30) appeared there again last night (August 1) badly intoxicated and crazed with liquor. She was locked up on a charge of drunk and disorderly. As soon as put in the cell she began to scream and curse, and when anyone approached her cell, they would be received by a tor- rent of oaths. She kept up her screaming and crying all night.

"About eleven o'clock she made an at- tempt at self-destruction by tearing off a piece of her skirt, and tying it around her neck, attempted to shut off her breath by drawing and twisting it. The other prisoners badly frightened called for help and she was rescued after the blood began to ooze from her mouth. Whether she would have succeeded in destroying her- self if let alone is hard to tell, as it would have taken considerable nerve to have succeeded in that manner.

"The boards on the cell-bunks were taken away from her and everything with which she could harm herself re- moved.

"The girl whose right name is Martha Maze is about eighteen years of age, and came originally from Maysville, Ky.

"She hired as nurse girl to some people who were coming to this city on a visit. When the people were ready to return she positively refused to go back to the home of her childhood. Everything was done to make her return but to no avail. This was about three years ago. She then hired out here and worked in kitchens and in the rope walks, finally going to the bad until, al- though only a young girl, she has become a hardened criminal, having served terms in different work-houses over the country. When taken before Mayor Howard Thurs- day morning she plead guilty and was assessed \$2 and costs and five days on bread and water."

Democratic Rally at Aberdeen.

The John P. Leedom Club will have a big ratification meeting at Aberdeen Wednesday evening, August 8th. Prom- inent speakers will be on hand and ad- dress the crowd. Haucke's Band and Brass Band has been engaged to furnish music for the occasion, and a grand time is anticipated. A cordial invitation is extended to the Democrats of this city and county. The ferry boat will take the crowd over from this city. The band will leave the court house at 7 o'clock, and will escort the Bandana Club over to the meeting. All members are requested to be in line.

A NUMBER OF THE POWERS ADD TO THEIR NAVAL FORCES.

The Czar in a Peculiar Position.—Nearly Every Nation of Europe Scheming for a Slice of Africa—English Publishers and Our Copyright Bill—Notes.

LONDON, Aug. 6.—The pessimist has certainly a strong argument against the optimistic view taken of European affairs as a result of the visits of the emperor of Germany to Russia, Sweden and Denmark, three powers which are noted for their hatred of Germany and everything German, the fact is that on the continent, in season and out of season, whether the talk is of peace or of war, the one universal rule is to arm and to continue arming.

One of the latest telegrams announces another large prospective addition to the already overgrown army of Russia. In France the army has been vastly improved in its training organization and armament, and at present is better disciplined, trained and officered than it has been at any time since 1870. Recent changes in the highest department show that the machinery of supreme command is receiving full consideration. The splendid forts which stud the eastern frontier are being rapidly strengthened and made proof as far as possible against the new explosives.

Germany, Russia, Austria, France, Italy and even England have of late developed intense anxiety to strengthen their naval defenses and large sums are now being spent by each of these powers in building iron clads, cruisers and torpedo boats.

The czar is understood to be in a peculiar position. He is restraining an impulse which commands his intellectual approval, and restraining it because he wants peace. Brought up as a disciple of the Pan-Slavist school, he naturally adopts the Pan-Slavist ideal, which would urge him to advance, as so many of his ancestors have done, upon the road that leads to the Bosphorus.

He is largely surrounded by persons who are of the same political creed. Their influences have for a year or two been neutralized by the will of the czar. Experience shows that in such conditions the probability is in favor of the czar's finding himself sooner or later acquiescing in the desires of those surrounding him.

The main object of the recent visit of the Emperor William, no doubt, was to strengthen the czar to oppose the barrier of his will against all the forces of National prejudice and intrigue. The German emperor is now endeavoring to remove any misunderstanding between the czar and the Austrian government. This is, of course, the gordian knot. There are those who would push the czar into an attempt at any cost to recover the ground that has been lost in Bulgaria.

The African Campaign.

PARIS, Aug. 6.—M. Goblet, minister of foreign affairs, has sent a note to the French representatives abroad in reference to the announcement made by the Italian government that Italy has taken possession of Massowah and the adjacent territory. He sets forth that Italy's action against Massowah began on February 5, 1885, when the government at Rome repudiated the charge that it contemplated territorial extension and declared that its object was merely to protect Italian subjects and property.

Since then M. Goblet maintains the Italian government had never given notice of its intention to appropriate Massowah, as required by the African conference held at Berlin in 1885. Indeed, he says that only last year, when she blockaded Massowah, she declared that the question of sovereignty was still in abeyance and would not be regarded as prejudicial. He holds, therefore, that Italy has no right as yet to announce ownership under Berlin capitulations.

Austria, on the other hand, has instructed her subjects at Massowah to recognize the authority of Italy, and submit to the laws which she has established, and which render the Berlin capitulations purposeless. It is more than probable that France will stand alone in her protest. Italy is assured of that, since her ally, Germany, will make no objection, and she entered Massowah by British connivance. Italy, therefore, forthwith announces that she has hoisted her flag over the island of Zella, south of and contiguous to Massowah, and established a protectorate at the request of the local sheiks.

This is part of the game which England and Italy together are playing against France. They have joined hands to maintain the maritime control of the Mediterranean and the Red sea, that the republic may be deprived of her share of what has become a great bone of contention among nearly all the European powers. England has crowded France out of Egypt and continues to administer against the futile protest of the Suez Canal. She doubtless expects to appropriate it eventually, and the Nile will become her exclusive highway to central Africa.

Her ally, Italy, when the favorable moment arrives, will overrun Abyssinia. King John apprehends the neutral policy of England in Italy, and hence his delegation of priests to the czar, offering Russia a port on the Red sea. The fortunes of war, which must follow upon the conflicting African interests, may defeat, however, existing intentions.

Our Copyright Bill.

DUBLIN, Aug. 6.—The Typographical Provident society, of Dublin, has petitioned various public bodies to endeavor to induce the British government to use its influence with the American government to secure the expunging of the objectionable clauses from the proposed international copyright bill.

What the European publishers desire in their interest is the privilege of sending to America their electrotype plates from which to print American editions of the works of authors, which the bill proposes to protect. The bill, however, has in view the interests of the composers as well as authors, and requires a foreign work, protected by copyright to be set up and printed in America.

Foreign Notes.

Excessive rains in France have caused widespread ruination of crops. The vintage will be inferior.

Floods are doing enormous damage to bridges and railways throughout Switzerland. Lake Lucerne is overflowing.

The London Daily News says that the Parnellites have no intention at present to offer further serious opposition to the commission bill. The commission, it says, will probably not commence the inquiry until November. Silsila is being devastated by terrible floods, the worst known in thirty years.

Along the rivers Bober and Zaden the damage is especially great. Several mills at Greifenberg have been destroyed and the crops have been ruined.

Emperor Francis Joseph, in an autograph letter to Herr Von Kallay, minister of finance, expresses satisfaction at learning from reports prepared by the crown prince of the great progress that has been made in the peaceful, intellectual and material development of Bosnia.

BRIEF MENTION.

Topics of the Times Given in a Terse and Spicy Manner.

The excessive heat is cooking Ohio fruit. School children at Findlay numbered 3,731.

The Canucks will have no Mormonism in their.

William Hayes came near hanging himself in jail at Zanesville.

George Rigney was drowned while bathing near Chillicothe, O.

At Cleveland sixty-one street car horses are afflicted with the glanders.

Mr. and Mrs. John Park celebrated their golden wedding at Williamsburg, O.

Seraph Heideisberger, of Chillicothe, O., severed his jugular with a pruning-knife.

"Shang" Draper says he knows nothing of "Blinky" Morgan or MacDonald, and never did.

Frank Mount, of New Brunswick, N. J., gets twenty-five years for assaulting two girls.

Open switch at Hunt station, O., on the Baltimore & Ohio road, caused an \$8,000 wreck.

Cranks at Zanesville are talking of a monument for "Blinky" Morgan, because they think him innocent.

Numberless cases of fatal sunstroke are reported during the intense heat of Friday from Kentucky, Indiana and Ohio.

Martin Burke, aged sixty years, drowned himself in Silver lake, near Bellefontaine, O., in the presence of several hundred people.

Mrs. Jenkins, who murdered her niece, Hattie De Bann, at Terre Haute, Ind., will retire behind the penitentiary bars for three years.

Pleasant island, in the Pacific ocean, has been annexed to Germany. The government prohibits the introduction of arms and ammunition.

W. J. Denman, postmaster of Nicholasville, Ky., has gone to Washington to clear his character of aspersions cast upon it by Don M. Dickerson.

At Paris, Ky., a tramp, to whom Henry Fenwick had just given a dollar to fill up on, testified his gratitude by relieving Fenwick of his gold watch. Jailed.

It is now shown that a young man named Miller, hanged at Charlottesville, P. E. I., for murdering his sweetheart, was innocent. The real criminal swore his life away.

At Hartford, Ky., Willie Austin pounded Doc Stevens' calf; Doc Stevens pounded Willie Austin; Willie's maternal parents pounded Doc Stevens with an ax, and he is likely to die.

The liabilities of the bankrupt firm of Marfield & Company, millers, of Chillicothe, O., are \$235,000, and the liability of the creditors getting anything is as the airy fabric of a dream.

Rev. Thomas McEwan, acting pastor of St. Paul's Episcopal church, Evansville, Ind., is arrested for using grossly improper language to a prominent lady member of that church.

At Hopkinsville, Ky., Will Carver and B. B. Slaughter indulged in the game indicated by their names. Carver attempted to slaughter Slaughter, whereupon Slaughter carved Carver, and will answer to the charge of manslaughter.

Asa Hatfield, Capt. Hatfield, Elias Hatfield and Tom Mitchell, who were quite prominent in the late trouble, and for whose arrest the state of Kentucky has offered increased rewards, aggregating \$5,000 or over, have left or are leaving the state to escape arrest, believing that it is not safe for them to remain in their present location.

Professor Weissenbauer, geologist, analyzes Findlay land thus: A vast reservoir of natural gas, resting on a strata of rock one mile in thickness, under which is a raging fire; temperature, 8,000 degrees. It is pertinent to remark that the rocky partition is melting away rapidly. A sudden rise in real estate is predicted when the gas and fire meet.

Theodore L. Shotwell, an ex-Cincinnatian, but now of the firm of Shotwell, Clerihew & Lothman, of St. Paul, Minn., has been held to answer to the grand jury there in \$20,000 bond for alleged grand larceny in obtaining money under false pretenses by depositing in the National National bank a check on a Providence bank for \$14,000, the firm at the time having no money in the eastern banking house. His partner, A. M. Clerihew, was discharged.

Professor Elisha Gray, of Highland Park, Ill., has patented a telautograph, which will enable a man to sit down in Boston or Omaha and yet simultaneously write out checks for his wife, who is summing at Long Branch. This rather long-named feat is accomplished by means of a pulsating electric wire, which produces such chirographic movements at the far end of the line as are made by the writer at the other end. Writing by lightning will be quite a novelty.

Indications.

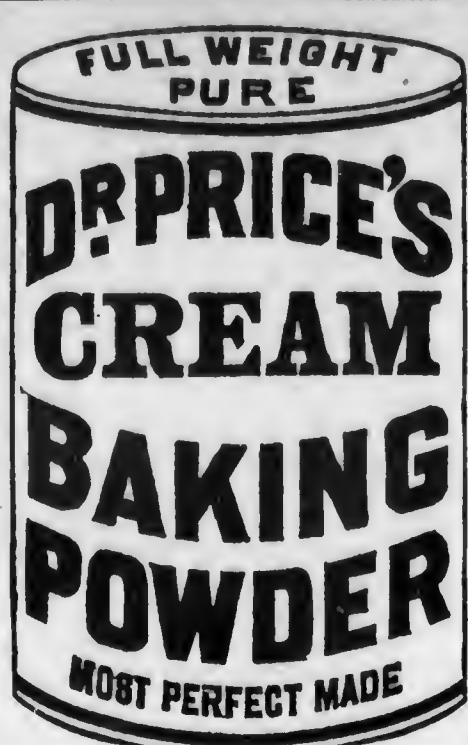

WASHINGTON, Aug. 6.—Local rains, followed by fair cooler weather; winds becoming northerly.

How the Indians Stand.

PIERRE, Dak., Aug. 6.—To determine if possible, how the Indians on the Cheyenne agency stand on the Sioux treaty, Agent McChesney on last ration day ordered his clerk to interview twenty-five Indians at random as to their preference in the matter. Of these nineteen were outspoken in favor of signing the treaty, three were undecided, and three were firmly opposed to it. Upon explaining fully the provisions of the bill, the three who were undecided expressed a willingness to sign, but the remaining trio still held out. The agent thinks there will be no trouble in getting the Indians at Cheyenne to sign.

Attempts to Form a Flour Trust.

ST. LOUIS, Aug. 6.—It was learned to-day that circulars have been issued by Alexander H. Smith, secretary of the St. Louis Millers' Association, calling a meeting of millers of the winter wheat states for the purpose of forming a flour trust. August 31 is the date set for the meeting. The circular has been kept a profound secret until to-day and the promoters of the project are not a little angry over its gaining publicity.
